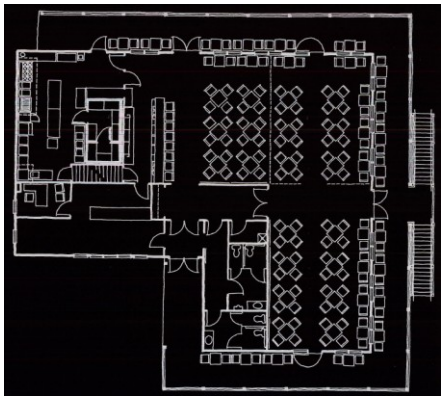
5583 Davison Road
Lockport, New York 14094

PROJECT DESCRIPTION

This 3,828 SF golf course club-house/party-house replaced a structure completely lost to fire. The design references the agrarian suroundings, complete with a plan that can be segregated into three separate party rooms through the use of sliding barn-style doors. The restaurant and bar has interior seating for 146 people, with additional exterior seating on a raised wrap-around porch. Along with the restaurant support areas for prep, cooking, washing and storage; the first floor also includes a small pro-shop area, and the basement provides shelter for a fleet of golf carts and grounds equipment.



PARTICIPATION

All design and drawings were prepared by David Strabel independently which included design-grams and a full bid set of construct-grams complete with site work, mechanical and electrical drawings.
